Nothing Phone (2) – Data Sheet

Technical data of the device as supplied in the Kosmos bundle

As of: November 15, 2026

Technical specifications

Display

- 6.7" LTPO OLED, 2412 × 1080 pixels (approx. 394 ppi)
- Adaptive refresh rate from 1 to 120 Hz
- Brightness up to 1,600 nits for HDR peaks (HDR10+)
- Gorilla Glass 5

Performance & storage

- **Processor:** Qualcomm Snapdragon 8+ Gen 1 (4 nm), Adreno 730 graphics
- **Memory:** 12 GB RAM (LPDDR5), 256 GB internal storage (UFS, not expandable) – standard configuration in the bundle
- **Operating system:** Android 15 with crDroid 11.6 (custom ROM)

Cameras

- **Main camera:** 50 MP with optical image stabilization
- **Ultra-wide:** 50 MP, 114° field of view, macro from 4 cm
- **Front camera:** 32 MP
- **Video:** up to 4K at 60 frames per second

Battery & charging

- 4700 mAh
- Wired 45 W, wireless (Qi) 15 W, reverse wireless charging 5 W (e.g. for earbuds)
- A power adapter is not included with the device.

Connectivity & controls

- 5G, dual SIM (two Nano-SIM cards), Wi-Fi 6, Bluetooth 5.3, NFC
- USB-C (USB 2.0), no 3.5 mm headphone jack – headphones connect via Bluetooth or USB-C
- Stereo speakers and three microphones
- Optical in-display fingerprint sensor

Build

- **Dimensions & weight:** 162.1 × 76.4 × 8.6 mm, approx. 201 g
- **Materials:** Glass front and back, aluminum frame (mid-frame made of 100% recycled aluminum)
- **Rating:** IP54 (protected against splashes and dust)
- **Notable feature:** Glyph Interface – 11 light strips with 33 individually controllable zones on the back

Version in the bundle

- Every phone used is refurbished: technical and cosmetic condition “AAA” (the best refurbished grade, with barely any visible signs of use), with at least 85% battery health.
- The custom ROM contains neither Google apps nor the Play Store; no Kosmos function needs a Google account.

Technical details according to the manufacturer: Nothing, Phone (2) product page (archived 25 Dec 2024), https://web.archive.org/web/20241225000019/https://nothing.tech/pages/phone-2. The details on the version in the bundle are our own.
